

KALLANG HORIZON

**HDB'S SALES LAUNCH
NOVEMBER 2022**

*Artist's impression*

KALLANG HORIZON

Located along the Kallang River, Kallang Horizon is bounded by Lorong 1 Geylang and the Kallang MRT station. This development comprises 3 residential blocks ranging from 26 to 30 storeys with a choice of 477 units consisting of 3- and 4-room flats. Kallang Horizon is offered under the Prime Location Public Housing (PLH) model. Find out more about the PLH model at <https://www.hdb.gov.sg/cs/infoweb/residential/buying-a-flat/finding-a-flat/plh>.

There is a bus interchange within the development, sited next to the Kallang MRT station. The roof of the bus interchange will be home to an extensive landscaped deck that comes with a variety of recreational and communal activities for residents to enjoy. These include children's playgrounds, fitness stations, shelters, and trellises.

Artist's impression

The precinct pavilion in the development will have an exercise deck located on its roof and is orientated to face the Kallang River to provide great views and welcome residents home. Roof gardens located on 2 of the residential blocks provide residents with more spaces to enjoy the scenic river views. A childcare centre and a residents' network centre will also be provided within the development.

Residents at Kallang Horizon will be served by the existing Multi-Storey Car Park at Block 8. Please refer to the site plan for the facilities provided in the development. Facilities in this development will be accessible by the public.

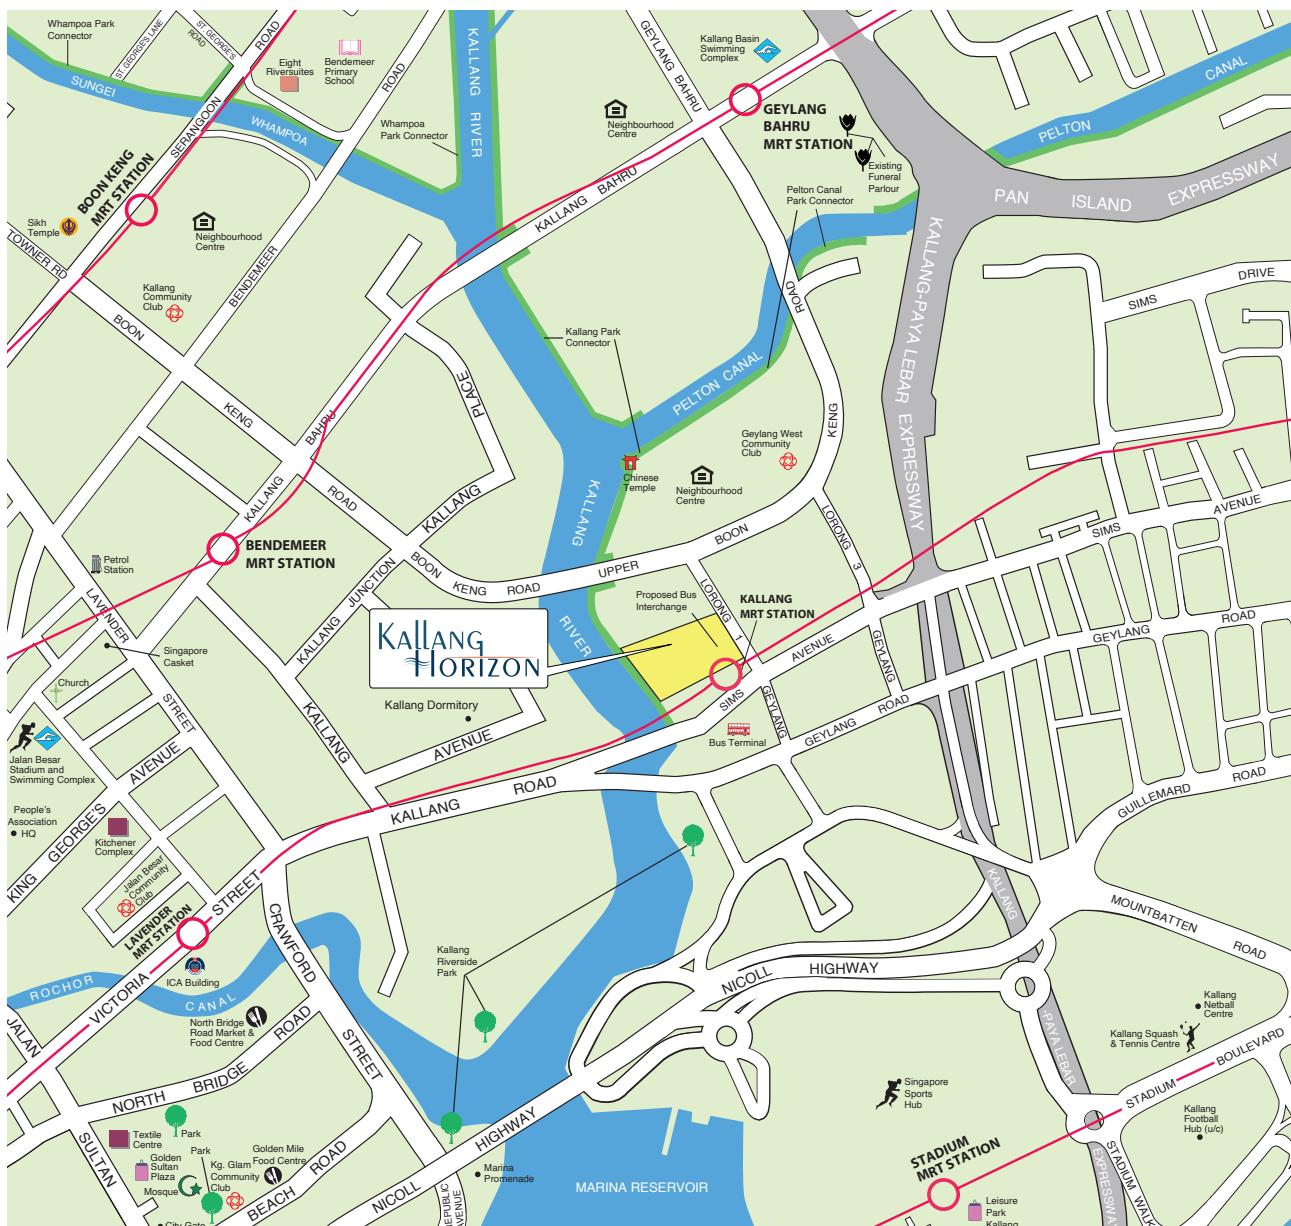

IMPORTANT NOTES

HDB precincts are planned to serve the evolving needs of the community. There are spaces catered for future inclusion of amenities/ facilities (such as childcare centres, elderly-related facilities, education centres, residents' network centres, day activity centres, etc), commercial facilities (such as shops and eating houses), mechanical and electrical rooms, and such other facilities depending on the prevailing needs. These spaces could be in the void decks, common property, car parks, or stand-alone community buildings.

In addition, housing projects may be located near roads, railways, airbases, and land used for non-residential purposes. Hence, residents may experience higher noise levels. We have provided information on the surrounding land use, proposed facilities and their locations in the maps and plans of individual projects, where feasible. The information provided is indicatively based on the current planning intent of the relevant authorities and is subject to change from time to time.
